

SYMPHONY™

A DISPATCH EXPERIENCE
LIKE NO OTHER —
BECAUSE IT'S YOURS

Customizable Interface

Puts most-used features where
dispatchers need them.

Patented Baton™ Technology

Provides a dockable
display of radio system
status and controls.

HARRIS® TECHNOLOGY TO CONNECT,
INFORM AND PROTECT™

harris.com | [#harriscorp](https://twitter.com/harriscorp)

CONDUCT DISPATCH YOUR WAY

A dispatch experience designed by you.

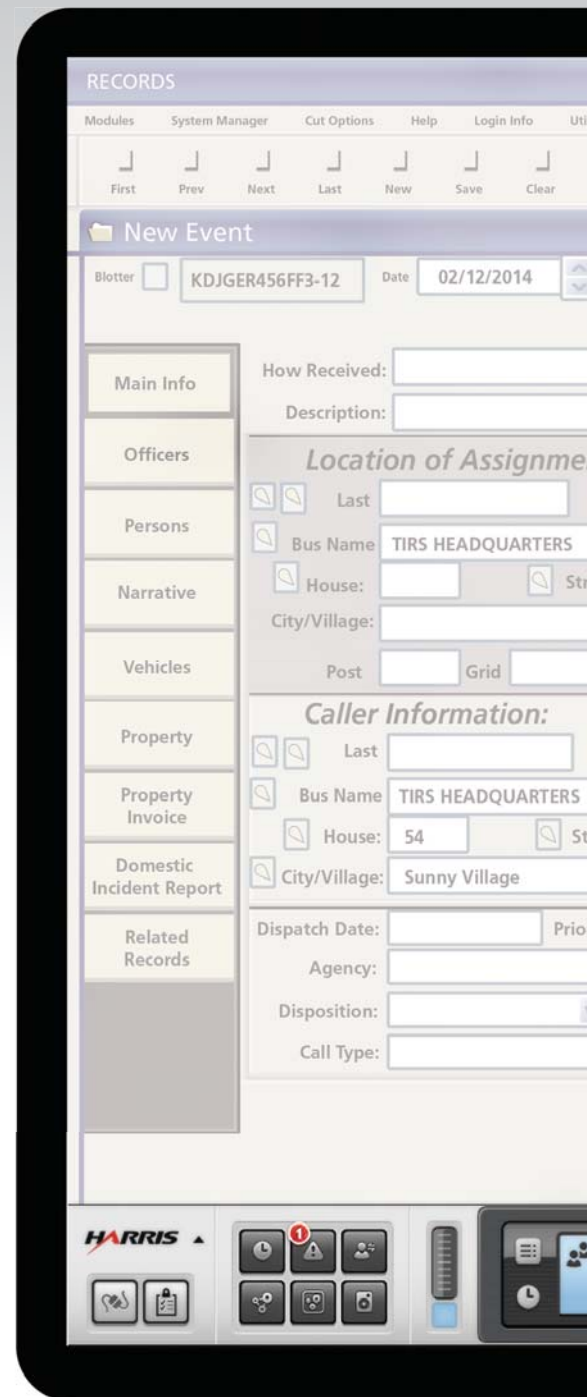

The Symphony full-screen application allows agencies to optimize the user interface to match their communication workflow. Symphony innovations like the Select Bar ensure that critical communications and features are always accessible, prominent and persistent.

Focus on what is important to you.

Customize your screen with multi-tabbed modules that let you assign audio to the headset and up to eight speakers, replay calls and handle emergency calls. All personalized just for you.

Place the Baton™ on any screen, anywhere.

Symphony's patented Baton technology extends the dispatch user interface to CAD terminals, allowing easy and full integration of LMR communications and CAD on a single monitor, mouse and keyboard.

POWERFUL. RELIABLE. CUSTOMIZABLE.

Innovative hardware platform provides:

- Silent operation with no moving components
- Flexible and simple mechanical configuration (mount in a rack, mount under a desk or use as a desktop unit)
- Vibration resistant for mobile installations
- Remote configuration capability
- End-to-end voice encryption for secure communications
- Superior lifecycle management
- Industry-standard, rugged connectors
- Ability to run the existing C3 MaestroIP™ application or the new Symphony application

State-of-the-art user interface includes:

- 1,024 modules, 3 module sizes
- 14 different module colors
- 32 predefined simuselects
- 16 user setups
- Up to 8 speakers
- Access to Aux I/O
- AES encryption
- 24-hour instant recall recorder
- Single button for last call replay
- Trunking or Conventional capability
- 16 active patches on a console
- Full paging support
